REVENUE DEPARTMENT.

- A Dictionary of the Economic Products of India**. By DA. GEO. WATT, C.I.E., Reporter on Economic Products.
- Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.

- A Dictionary of the Economic Products of India.**
By DR. GEO. WATT, C.I.E.,
Reporter on Economic Products.
- Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*. No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

- REVENUE DEPARTMENT.**
- A Dictionary of the Economic Products of India.** By DR. GEO. WATT, C.I.E.,
Reporter on Economic Products.
- Published under the authority of the Government of India in the Revenue and Agricultural Department.
- The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.
- The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 162.

The 5th May 1890.

THE subjoined annual accounts and report of the Road Cess Committee of the district of Darjeeling for the year 1888-89 are published for general information.

W. B. BESTIC,

Under-Secy. to the Govt. of Bengal.

No. 52, dated Darjeeling, the 28th May 1889.

From—A. W. PAUL, Esq., Deputy Commissioner and Chairman, Darjeeling District Road Cess Committee,

To—The Commissioner of the Rajshahye Division.

UNDER section 179 of Act IX (B.C.) of 1880, I have the honour to submit, in duplicate, the following report on the administration of the Road Fund of this district during the cess year ending 31st March 1889, together with the detailed accounts of income and expenditure for that period duly examined by the Sub-Committee of Audit and passed by the District Road Committee at a special meeting held on the 25th May 1889.

2. The balance at credit of the Fund on 1st April 1888, Rs. 8,011-12-9, and the receipts under several heads during the year under review, Rs. 31,950-0-9, made up a grand total of Rs. 39,961-13-6. The total expenditure during that period was Rs. 29,550-2-4, leaving a balance of Rs. 10,411-11-2 available for expenditure during the current year.

3. *Assessment and Collections.*—During the year under report, out of the current demand of Rs. 21,621, Rs. 899 were realised in advance during the previous year and Rs. 20,722 collected during the year, leaving no balance unrealised at the close of the year. A further sum of Rs. 62, being part of arrears outstanding on the 31st March 1888, plus Rs. 1,026 collected in advance for following years, made up a total collection of Rs. 21,810, which was all credited in the Road Fund account during the year of report. Of the total sum of Rs. 63 shewn as balance unrealised at the close of the cess year 1887-88 in the report submitted with this office No. 55, dated the 29th May 1888, only Rs. 62 were collected, as stated above, during the year: the difference of Re. 1 is owing to a permanent remission granted as per Commissioner's No. 71M, dated the 24th April 1888.

4. *Working of the Committee.*—The number of meetings of the District Committee held during the year under review was five. The average attendance was 3 out of 8 official and 5 out of 18 non-official members. The Terai Branch Committee met five times during the above period, and the average attendance, as reported by the Terai Vice-Chairman, was 3 out of 3 official and 5 out of 13 non-official members.

5. *List of Roads*.—Practically no alterations were made in the list of district roads mentioned in the previous report. A schedule of all roads under the control of the Committee was prepared in accordance with the provisions of sections 141 and 143 of the Act, altering only the numbers and classifications of certain roads and giving a detailed description of all roads as to average width of metal, total waterway of culverts and bridges, roadside lands, &c.

6. *Public Works*—(a) *Original*.—The construction of the suspension bridge over the Rongbong river near Sungma was completed during the year at a cost of Rs. 9,837-1-1. The amount originally estimated for and sanctioned by the Local Government was Rs. 6,106. The cause of the excess of Rs. 3,731-1-1 over the sanctioned estimated figure was due to the fact that at one of their inspection tours, while the work was in progress, the Superintending Engineer, Eastern Circle, Executive Engineer, Darjeeling Division, and the Chairman of the Committee suggested certain additional works not included in the estimate, which were carried out with the view to make the bridge extra strong and safe, and a revised estimate was accordingly framed and forwarded for sanction of Government. In this connection, it may further be stated that Messrs A. and J. Main and Company, who contracted for the supply of the iron works, subsequently demanded an enhanced price for the same owing to the increased rate of exchange on articles imported from Glasgow.

The District Engineer's project for bridging the stream at Pulbazar at the old site with a suitably larger span (170 feet) was sanctioned by the Government of Bengal during the year under report, and the work of construction is in progress. A timber cantilever bridge of 70 feet span was also put up over the river Rungnoo at a cost of Rs. 300 during the year.

(b) *Repairs*.—Rs. 4,354-15-5 were spent on Hill roads, and Rs. 2,144-0-6 on Terai roads, making a total expenditure of Rs. 6,498-15-11. Besides the above, a further sum of Rs. 917-10-1 was spent on village roads (surface tracks—Class V of printed list of roads) in the Terai, and Rs. 427-8-6 in repairing bridges in the Hills. As last year, the repairs to Hill roads were chiefly executed by the Planter members of the Committee, who have, as before, uniformly and cheerfully rendered every possible assistance to the Department.

Out of the total number of 28 district and village roads in the Terai, 10 were directly under the charge of the District Engineer, and the rest apportioned to the several members of the Committee, the Vice-Chairman of the Terai Branch Committee exercising the scrutiny as regards expenditure towards their maintenance as heretofore.

7. *Arboriculture*.—As reported last year, the whole of the work under this head was undertaken by the Darjeeling Improvement Fund, there being no expenditure whatever incurred by the Committee.

8. *Working of the Cess Act*.—The cess was levied, as last year, at the maximum rate, and the general results of the year were satisfactory, the percentage of collection having amounted to 100 per cent. on the demands.

The Darjeeling-Himalayan Railway Company was exempted from the operation of the Cess Act (*vide* notification in the *Calcutta Gazette*, dated 23rd January 1889). This exemption, it may be remarked, will lessen the income of the Committee by Rs. 4,935-3-10, but a representation has been made to Government on the subject.

9. *Establishment*.—I can offer no remarks as I only rejoined on the 18th February 1889.

10. *Inspection of Accounts*.—The accounts of the Committee's office were inspected by the Local Auditor in June last. It is satisfactory to note that no fault was found with the manner in which the books and papers of the office were kept by the present Accountant.

Annual accounts of Income and Expenditure for the cess year 1888-89 ending 31st March 1889.

A. WERNICKE,
Vice-Chairman.

Explanatory Memorandum accompanying the Annual Account of 1888-89.

RECEIPTS.

Provincial rates.

The increase in the collection of "Cess on lands" and "Cess on mines and railways" is due to the revaluation of certain estates in the district.

Miscellaneous.

Rupees 500 under head "Miscellaneous" was contributed by the Darjeeling Municipality for the erection of a bridge over the Little Rungit at Pulbazar, which is an important communication for the food-supply of the Station.

The small decrease in income under the head "Contribution to communications out of ten per cent. collection from Government and other estates" calls for no explanation.

EXPENDITURE.

Administration.

(a). The percentage cost of establishment for the office of account and control has been calculated at 1.54 per cent. on the total actual income of the fund, and sanction has been obtained for the excess payment. (Vide Commissioner's No. 60P.W.ct., dated 15th January 1889.)

Public Works—Original.

(b). After the commencement of the work of construction of the bridge over the Rongbong on road No. 13, some suggestions in connection with the same were made by the Executive and Superintending Engineers and by the Chairman of the Committee, necessitating the submission of a revised estimate for Rs. 9,847 to the Local Government for sanction. The sum of Rs. 1,989-10-2 being excess over estimate included in the above estimate and provided in the year 1888-89, sanction having been obtained for the provision (vide Commissioner's No. 93P.W., dated 24th November 1888.)

(c). Same explanation as in (b). Only with this exception that the sums of Rs. 636-8-6 and Rs. 46-8-0 were provided at different periods, sanction having been each time obtained for the same. (*Vide* Commissioner's No. 93P.W., dated 24th November 1888).

(d). When the budget estimate for 1888-89 was framed, no provision was made for the construction of the Pulbazar bridge; but as the work was thought to be of the greatest importance and utility to the general public, the Committee considered it best to undertake it at once, and accordingly allotted for it Rs. 500 out of reserve for expenditure up to the close of the year. (*Vide* Commissioner's No. 1P.W., dated 1st April 1889.)

Repairs.

(e). The excess of Rs. 93-8 was provided for with the approval of the Committee from the Reserve fund, and sanction to it was accorded by Commissioner's No. 29P.W.ct., dated 28th September 1888.

(f). Sanction for the excess payment for this road was obtained by transferring Rs. 16 from the savings on road No. 31, Old Siliguri to Rangapani. (*Vide* Commissioner's No. 35P.W., dated 22nd June 1889.)

(g). The expenditure of Rs. 11-9-4 on the Tepu-Nuxulbari road was effected from an adjustment of a sum advanced in 1887-88, in which year there was a grant provided for the repairs of the road. This expenditure was, however, sanctioned by the Committee, and the amount transferred from the savings on road No. 41. (*Vide* above letter.)

(h). No provisions were at first made for these two roads, but subsequently repairs on them becoming necessary, the Committee sanctioned a grant of Rs. 50 for each road by transferring the amount from the total grant provided for "Urgent repairs to Terai roads in general."

The budget allotments on some of the District and Terai village roads, though actually advanced and expended on the works in question, could not be entered in the Committee's books owing to detailed accounts not having reached the office in time. These will be adjusted during the current year and noticed in the next report.

- REVENUE DEPARTMENT.**
- A Dictionary of the Economic Products of India.** By DR. GEO. WATT, C.I.E., Reporter on Economic Products.
- Published under the authority of the Government of India in the Revenue and Agricultural Department.
- The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.
- The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*.No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 3 guineas in England, exclusive of packing and postage.

REVENUE DEPARTMENT.

A Dictionary of the Economic Products of India.

By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first two volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses, both chemical and industrial; trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributions have, however, furnished the results of new discoveries, and confirmed the vernacular names; so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal pages; Volume II embraces the letter C in 689 pages; Volume III is in course of preparation, and will contain the letters D, E, F, and G. The whole work will, it is expected, be completed in six volumes by 1891; but a seventh volume may also be issued consisting of an index to all the vernacular and other names contained in the Dictionary; and this as a work of reference, it is hoped, may prove of considerable value.

The price to subscribers will be in India Rs. 30 and in England 2 guineas, payable in advance, for the complete set. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

*.No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately. The price to non-subscribers will be Rs. 45 in India, and 5 guineas in England, exclusive of packing and postage.

1. He shall give correct information about his own name, age and residence, the name and residence of the owner, the place where the cart is ordinarily kept and such other particulars necessary to establish his own identity and that of the owner of the cart as he may be required by the Registering Officer to state at the time of each half-yearly registration.

Bye-laws proposed under Section 412, Act II (B.C.) of 1888 (e) and (f), passed by the Commissioners in Meeting on 3rd and 24th April 1890:—

(c) *Regarding the height and mode of construction of buildings.*

1. Whenever any old masonry building has been taken down to an extent exceeding one-half of such building, such to be measured in cubic feet, the re-building of the portion thereof shall be deemed to be the erection of a new building, and such portion shall be subject to the regulations of the Act and to the bye-laws respecting new buildings.

2. Every masonry building shall have its outer walls constructed of brick or other hard and incombustible substance, and the foundation shall be the solid ground, or concrete, or other solid substructure on which the footings shall rest.

3. Every person who shall erect a new building shall construct every wall of such building so as to rest upon proper footings. He shall cause the projection at the widest part of the footings of every wall on each side of such wall to be at least equal to one-third of the thickness of such wall at its base, unless an adjoining wall interferes, in which case the projection may be omitted where that wall adjoins. All walls of houses intended to be used as dwelling houses shall have a damp proof course at or above the level of the ground floor.

2. If new ranges of huts are being erected they shall be built in regular lines with a road or path of a minimum breadth of nine feet

Such external wall shall, where it faces a street of less than 16 feet in width, have between it and the boundary line of the owners' premises an open space of not less than 2 feet in width. At the sides it may be attached to the adjacent premises, but if not so attached at the sides and in every case at the back, it shall have a space of 4 feet along the whole side of the building between it and the boundary line of the owners' premises or between it and the inner edge of the boundary wall, if that boundary line is a wall. And every open space, whether exterior or interior, required by this clause, shall be and be kept free from any erection other than a boundary wall and shall be open to the sky, and shall be and be kept open to access from each end thereof.

4. Every open space or interior court-yard referred to in the above rule shall be raised at least one foot above the level of the nearest street, so as to admit of easy drainage into it.

RULES FOR BURNING CORPSES AT THE BURNING GHATS.

1. The Sub-Registrar of every municipal burning ghat shall live in the immediate vicinity of the ghat, and shall cause a board, containing his name and official designation, to be placed in some conspicuous portion of his dwelling house.

2. Every corpse brought to a burning-ghat, without being accompanied by a certificate in the form prescribed in section 190, Act II (B.C.) of 1888, shall be examined forthwith by the Sub-Registrar, without touching the corpse, who, upon being satisfied that death has resulted from natural causes, shall enter, without fee, in the register kept for the purpose, the particulars specified in the abovementioned form, every such entry being made in order from the beginning to the end of the book. When a corpse is accompanied by a certificate from a Registrar or Medical Officer, the Sub-Registrar shall file such certificate, and then permit the corpse to be burnt.

3. If the Sub-Registrar has any reason to suspect that death has not resulted from natural causes, he shall send immediate intimation thereof to the nearest police-station, and in the meantime withhold permission to have the corpse burnt. Where there is no reason for such suspicion, the corpse shall be burnt within four hours after its arrival.

4. The Sub-Registrar shall see that no corpse, or portion of a corpse, shall on any account be allowed to be thrown into the river. He shall take particular care that no corpse, or portion of a corpse, except the navel, shall remain without being completely reduced to ashes, or be removed in any other condition. The charge to be made for the burning of a body will be on a scale laid down by the Commissioners.

5. The Sub-Registrar shall submit to the Health Officer a weekly return every Monday of all deaths registered at the ghat. This return shall contain the particulars specified in schedule II of Act II (B.C.) of 1888, and shall be accompanied by the certificates granted by the several Registrars or medical men during the week separately arranged in different bundles according to the several wards to which they relate.

6. The Sub-Registrar shall be very careful to see that all the belongings of a corpse, such as clothes, mats, bed and bedding, &c., brought with the corpse, are burnt, and none of the aforesaid things shall on any account be allowed to be removed from the ghat by the Domes or any other person. This prohibition shall not apply to any shawl or other valuable apparel brought with dead bodies.

7. CorpSES may be burnt both during the day and night, but the Sub-Registrar in charge of the ghat shall see that the ashes and sweepings

are removed daily, and that the burning-ghât is always kept clean.

8. The Sub-Registrar shall allow persons to burn the corpses of their friends and relatives, each according to the rites of his religion, without any interference.

9. No child or fœtus is allowed to be buried on the riverside.

10. The Dômes in charge are strictly prohibited to drink spirituous liquors within the burning-ground enclosure, or to be in a drunken state when on duty. The Sub-Registrar shall see that this rule is strictly enforced. He shall also remove from the burning-ghât all persons who are drunk or disorderly.

11. All persons connected with the burning-ghât must be civil and attentive to those who come there to have dead bodies burnt.

12. All remains of corpses, which have been dissected, as also those upon which a Coroner's inquest has been held, shall be brought to the ghât in a closed vehicle and burnt at night.

13. The contractor, who supplies the necessities for burning corpses, shall not be allowed to charge more than the rates specified below.

14. The Brahmin shall not demand any fee, gratuity or reward other than that authorized by the Commissioners for the performance of the necessary religious rites, and it shall be his duty to attend immediately on being sent for at all hours of the day or night, and to officiate as priest and cause the performance of the ceremony, and he shall be considered to be a servant of the Commissioners for the purpose of this rule.

15. The Brahmin shall on no pretence enter within the walled enclosure of the burning-ground, except when called by the relatives of deceased persons to officiate as priest, nor shall he remain therein after his services are completed.

16. Should the Brahmin demand any fee, reward or gratuity of any kind whatever in excess of the fee fixed in the tariff or enter the enclosure except when sent for, or remain therein after his services have been completed, or after he has been required by the Sub-Registrar or other officer of the Municipality to quit the same, or fail to attend when sent for, he shall be liable to dismissal at the discretion of the Commissioners and to be ejected from the burning-ground. Provided always that no person coming to burn a corpse will be prevented from bringing with him his family priest should he prefer to have the cremation ceremony performed by him. In such a case, however, the party who brings his own priest to the burning-ground shall be bound to allow the Brahmin his usual fee.

17. The contractor shall at all times keep on hand a sufficient supply of fuel and the other necessary articles named in the tariff; should he fail to do so, or neglect, or refuse to supply the same at any hour of day or night, or fail to keep his shop open at all times for the purpose of supplying the same, or use false or short weights, or supply inferior or unsuitable articles or create any disturbance within the limits of the Commissioners' lands, his license shall be cancelled, and he shall be summarily ejected from the land and be further liable to criminal prosecution as a trespasser.

18. Persons coming to the ghât for burning dead bodies shall be bound to purchase all the articles named, and the quantities specified in the tariff, from the contractor. But they will be at

liberty to provide themselves with whatever else they may require for cremation, as also all the articles therein named but in excess of the quantities specified in the tariff, or, when the contractor fails to supply them, from wheresoever they like; and the contractor shall not on any account interfere with persons bringing articles for burning dead bodies from outside.
